# TRANSFER PATHWAYS IN LOUISIANA

*Educate, Innovate, and Collaborate*

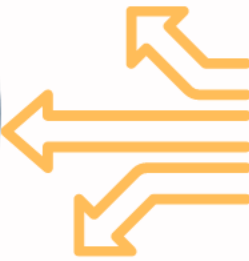

# BOARD OF REGENTS *charge*

*2022 legislative session - Senate Bill 261*

Charges the Regents to develop, coordinate, and maintain transfer pathways for baccalaureate programs that are highly demanded across the state

## *Transfer Pathways*

One way the Regents are working to double the number of working adults in Louisiana with meaningful, market-relevant postsecondary credentials by 2030

# PROCESS

## 1 IDENTIFY + ANALYZE

- Identify high demand programs using historical enrollment data
- Analyze current program curriculum for all institutions to determine the average, most common, minimum, and maximum number of credit hours for each general ed or program-specific category across the institutions

## 2 RECOMMEND + SUPPORT

- Recommend a list of courses to be included on a common 60-credit transfer pathway
- Develop a packet of information to support recommendations and facilitate faculty discussion

## 3 CONCUR+ FINALIZE

- Convene program faculty to discuss the recommendations and come to a consensus around a final 60-credit transfer pathway for review by the Regents
- Collect updated course maps and/or program information from institutions
